SUMMARY

I'm a creative Full Stack Web Developer based in Ethiopia, I decided to pursue my passion for programming also problem solving. I am learning Software Engineering in a Addis Ababa university and also i graduated as a Full-stack web Developer from Evangadi bootcamp. In addition to my technical expertise, I have also pursued studies in Economics. This multidisciplinary approach has allowed me to develop a unique perspective when it comes to problem-solving. By combining my knowledge of software engineering with economic principles, I can analyze data, think critically, and make informed decisions that consider both technical feasibility and economic viability.

EDUCATION

Evangadi Bootcamp

Graduated from Evangadi as a Full-stack web Developer in 2023

Addis Ababa University

Learning Bachelor's Degree in Software Engineering 2020– 2025

Unity University

Learning Bachelor's Degree in Economics 2020– 2024 (Gc)

SKILLS

- Strong organizational and time-management skills: Proven ability to prioritize tasks, meet deadlines, and manage multiple projects simultaneously.
- Eager to learn new things: Possesses a strong desire to continuously improve skillset, stay updated with the latest technologies, and adapt to new challenges.
- Ability to work independently and as part of a team: Thrives in both independent and collaborative environments, demonstrating initiative and taking ownership while seamlessly integrating with team dynamics.
- Detail-oriented and able to handle multiple tasks simultaneously: Possesses a keen eye for detail and accuracy while maintaining focus and efficiency under pressure.

CERTIFICATIONS

- Full Stack Web Development (MERN) Program Certification from Evangadi Tech
- Web Development internship Certificate of Achievement from codealpha and oasis infobyte
- Advanced Java Certification from LearnQuest
- Digital Marketing and E-commerce from Google
- Foundations: Data, Data, Everywhere from Google
- Introduction to Software Engineering from IBM
- Trainee Certificate from Meta

PROFESSIONAL EXPERIENCE

Oasis Infobyte · Internship Web Development and Designing

Dec 2023– Jan 2024

- Joined the esteemed Web Development and Design internship program, eager to learn from experienced professionals and enhance my technical skills.
- Committed to completing all assigned tasks diligently and upholding professional standards.

CodeAlpha · Internship Web Development

Nov 2023 – Dec 2023

- Focused on gaining hands-on experience and deepening my understanding of web development and design concepts.
- Excited to contribute meaningfully to the team and embark on a rewarding learning journey.

Technical Expertise

- Front-End Development:
 - Proficient in HTML, CSS, JavaScript, and Bootstrap for crafting user-friendly and responsive web interfaces.
 - Skilled in leveraging React and Next.js for building dynamic and scalable single-page applications.
- Back-End Development:
 - Well-versed in Node.js for constructing robust and efficient server-side applications.
 - Experience with Express.js for streamlining web application development.
 - Strong understanding of MySQL for relational database management and data manipulation.

MY PROJECTS

Netflix clone including API fetching from the movie database, also it finds a trailer of that movie using npm modules.
cloning the amazon website with checkout system and login functionality 2023
Registration System Handle form submission: Implement form submission logic in your component. Use state hooks (useState) to manage form data and handle user input changes. When the user submits the form, you can validate the input and send it to an API endpoint for registration.
